## WORK EXPERIENCE:

### Application Development Team Lead | Accenture | September 2021 – Present

- Developed Mule ESB interfaces and integration flows, ensuring seamless connectivity.
- Collaborated closely with clients to comprehend requirements and exceed expectations.
- Led a 5-member team, ensuring timely and high-quality project delivery.
- Proficient in Mule application testing with MUnit, Postman, and JMeter.
- Designed APIs following API led architecture principles.
- Implemented transformation logics using DataWeave Language (DWL).
- Created Mule APIs using Anypoint Studio and designed Restful APIs using Design Center.
- Facilitated Restful (JSON) and SOAP Web services for consumption and exposure.
- Utilized Mule Connectors including Salesforce, SAP, Amazon S3, Veeva, and Snowflake.
- Managed CI/CD deployments, resolving technical issues efficiently.
- Implemented various stream streaming strategies and optimized bulk data processing.

### MuleSoft Integration Consultant | ITC Infotech | November 2019 - September 2021

- Developed process, experience, and system APIs for efficient three-layer data transmission management.
- Implemented API policies including Authentication, client ID enforcement, Tokenization, & OAuth 2.0.
- Proficient in RAML for defining API resources, methods, and responses.
- Conducted customer onboarding on Vantage Point and facilitated EDI data transmission.
- Designed and developed highly scalable and modular software products using MuleSoft.
- Translated business requirements into functional designs, testing, projects, and EDI solutions.
- Expert in MuleSoft API development including REST and SOAP APIs, RAML structure creation.
- Created mapping specification documents for various EDI formats.
- Configured New Suppliers and facilitated AS2 certificates Exchange of EDIFACT messages.
- Handled problem incidents, change incidents, business-critical, and user-based incidents.
- Collaborated with VAN team to implement necessary enhancements and workflow scheduler.

### Integration Analyst | Epicor Software. | June 2018 - October 2019

- Implemented EDI for TPCx hosted Manufacturers and distributors, adept in B2B application maintenance & development.
- Integrated TPCx with Epicor Prophet21 Application for seamless EDI functionality.
- Proficient in Prophet21 Application for Order Processing, Accounts Payable, & Accounts Receivable.
- Skilled in XML mapping solutions & Altova mapper.
- Experienced in FTP, SFTP, AS2, TDx, and other communication channels.
- Evaluated new EDI requirements and liaised with CAMS for quote conversion.

### Integration Developer | EIT SERVICES (Hewlett Packard) | July 2015 - May 2018

- Designed and developed maps and components for B2B integration using Sterling Integrator 5.2.x.
- Proficient in mapping various data formats including IDOC, XML, cXml, CSV, and ASCII X12.
- Familiar with EDIFACT messages such as DELFOR, ORDERS, INVRPT, SLSRPT, INVOICE, & ORDRSP.
- Created Trading partner envelopes for inbound and outbound maps.
- Collaborated with trading partners for EDI onboarding.
- Worked with IBM Sterling B2B Integrator (SI), GXS Trusted Link for iSeries, and GXS TLI mapper.
- Proficient in the Business to Business (B2B) Application Domain, ensuring smooth integration.

## TECHNICAL SKILLS:

- |                         |                             |
|-------------------------|-----------------------------|
| • Programming Language: | Java, Data weave, RAML.     |
| • Databases:            | MySQL, MongoDB, Amazon S3.  |
| • Testing Tool:         | Postman, Jmeter, MUnits     |
| • Deployment Models:    | RTF, On Prem, CloudHub2.0.  |
| • DevOps Tools:         | Jenkins, GitHub, BitBucket. |

## ACADEMIC DETAILS:

- B.E. (Computer Science), Visvesvaraya Technological University Bangalore, 2015.
- 12<sup>th</sup> Standard (2011) & 10<sup>th</sup> Standard (2009) Julien Day School, I.C.S.E.
