99 About me

Experienced Mobile App Developer Specializing in Native Android and Cross-Platform Mobile App Development | Proficient in Leading Mobile App Development Teams

Profile Summary

I am an accomplished Engineering Lead with a proven track record of leading mobile app development teams and as an independent mobile app developer, delivering high-quality projects from design to delivery. With strong project management skills, I successfully cleared roadblocks, achieved milestones, and delivered projects on time. Working closely with stakeholders and architects, I provided successful feature alternatives aligning with project goals. I have expertise in Android, Java, Kotlin, Xamarin Forms,.Net MAUI, and I have knowledge in augmented reality and virtual reality development.

Education

B.Tech/B.E. 2013

Shree Venkateshwara HiTech Engineering College
